

## Reporting Bicycle Theft

The theft of unattended bicycles or locked bicycles taken from an on-campus bicycle rack may be reported via the telephone by contacting the San Jose-Evergreen Community College District Police Department at **(408) 270-6468**. Reports of stolen bicycles are generally referred by District Police to the San Jose Police Department for entry into the nationwide NCIC.

Please have the following information available:

- The bicycle's serial number
- Bicycle make and model
- Bicycle license number
- other unique identifiers

These details are essential for successful identification and recovery of stolen bicycles.

### Recovered Bicycles

If a bicycle is recovered, the police agency that recovers the bicycle will contact the District Police Department. They will provide descriptive information about the recovered bicycle, including serial number, or other unique identifying feature, color, make and model. Recovered bicycles' serial numbers are compared with bicycles reported as lost or stolen in the NCIC database of stolen articles. If the stolen bicycle is found, the law enforcement agency that reported the stolen item is notified of its recovery and the agency will notify the owner.
