San Jose • Evergreen Community College District
Supervisor Job Description

Position: Maintenance Supervisor  
Department: Maintenance

Location: District Office  
Date: Oct. 15, 2014

POSITION PURPOSE

Reporting to the Director of Facilities and Bond Program Management, the Maintenance Supervisor oversees the daily operations of maintenance workers and various subcontractors, and is responsible for preventive maintenance and repairs of all District buildings, vehicles, and equipment.

NATURE and SCOPE

The Maintenance Supervisor leads, coordinates, assigns and reviews the work of Maintenance Workers. The Maintenance Supervisor is responsible for repair and preventive maintenance of facilities District wide, as assigned, and coordinates work on District buildings and facilities by District staff and subcontractors. Assignments will also include the coordination of renovation projects in a variety of areas including HVAC, plumbing, electrical, carpentry, hardware, and miscellaneous repair tasks. This position requires extensive knowledge of trades associated with building and facility maintenance.

KEY DUTIES and RESPONSIBILITIES:

1. Plan, prioritize, assign, coordinate, and review the work of staff and subcontractors at District sites. Project coordination may involve not only direct reports but also other staff.

2. Establish schedules and methods for providing repair and preventive maintenance services including such factors as time estimates and constraints, project urgency, availability of staff, supply needs as well as equipment availability.

3. Oversee administration, distribution and monitoring of computerized work order system.

4. Develop preventive maintenance plan for District buildings, equipment and systems to maximize their life and effective operation.

5. Inspect the work of staff in progress and upon completion; provide advice and assistance to staff; ensure maintenance procedures are completed in a satisfactory and thorough manner and in compliance with District safety policies and procedures.

6. Participate in planning and monitoring of construction projects; provide technical advice on maintenance aspects.

7. Supervise, inspect, and approve small construction and installation projects of outside contractors. Assist with contractors to ensure work in guidelines established.

8. Assist the Director with budget preparation; recommend the purchase of necessary materials and equipment.

9. Review and provide input to District Design Standards to support reduced construction and operations costs.

10. Serve as the liaison with other departments, outside agencies, and the general public. Respond to and resolve service complaints and/or requests.
11. Supervise and evaluate the performance of assigned staff; interview and participate in selecting employees; train, advise, and discipline staff according to established policies and procedures in conjunction with the Director.

12. Prepare analytical and statistical reports on operations and activities.

13. Supervise the use of, the operation of a variety of hand and power tools, and light and heavy equipment.

14. Ensure adherence to effective work methods and safety requirements.

15. Attend and participate in professional group meetings; stay abreast of new trends and innovations in the field of facilities maintenance.

16. Perform related duties as assigned.
