The San José-Evergreen Community College District will begin the process of redistricting trustee areas as a result of the 2020 Census. It is anticipated that the final version of the adjusted trustee areas will be adopted by the SJECCD Board by the December 14, 2021 meeting.

The proposed redistricting process includes the following activities and timeline:

1. By August 14, 2021, staff will have secured consultant(s) having expertise and experience in redistricting.

2. At the August 31, 2021 Board meeting, staff and consultant(s) will:
   a. Present the 2020 Census data and discuss its impact on SJECCD current district boundaries.
   b. Provide a demographic report of each trustee area.
   c. Review the 1 Person 1 Vote Rule, principles of the Voting Rights Act and those portions of the Education Code requiring that all school districts redraw their trustee areas after the federal census.
   d. Report on existing conditions to demonstrate “over” or “under” representation as compared to the “ideal” trustee area of equal populations to the Board in an open session and solicit suggestions from the Board and the public.
   e. Present proposed work plan to review the trustee area boundaries of the San José-Evergreen Community College District. The presentation will include the scope of work to be conducted and the time frame for completing the work.
   f. Review principles (attached) established by the Board of Trustees during the last redistricting efforts in 2001 and 2011, and integrate these same principles in the proposed options to be brought back to the Board (the overarching concern here is not to disadvantage minority communities and to support the election of a diverse board).
g. GPS maps of proposed options should include major traffic arteries to make it easier to determine when a trustee area begins and ends and to compare and contrast with the current boundaries.

h. Present clear timelines between the next presentation (first formal public hearing) and the end of the process.

i. Identify outreach efforts to inform district constituents (voters) of the process underway at SJECCD and opportunities for public input.

3. After at least two public hearings at the Board meetings between September 14 and November 9, 2021, it is anticipated that the final trustee areas map will be adopted by the Board at the December 14, 2021 meeting.
