

Download Mitel Connect from App store or Google Play

Fill in the fields:

Username: enter your **network username**

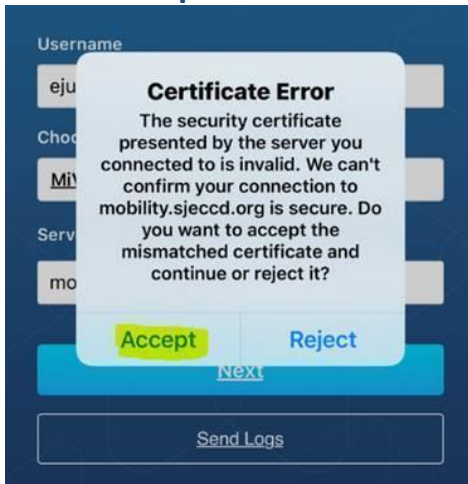

Choose type of service: **MiVoice Connect (Premise)**

Server address: **mobility.sjcccd.org**

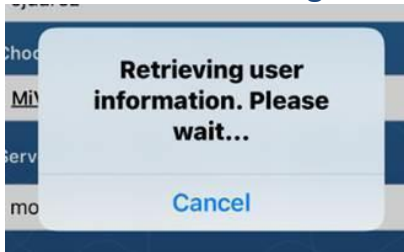

Press **Next**

A screenshot of the Mitel Connect app's setup screen. The background is dark blue with a white telephone handset icon at the top center. Below the icon is the word 'Connect'. There are three input fields: the first is labeled 'Username' and contains the text 'ejuarez'; the second is labeled 'Choose type of service' and contains the text 'MiVoice Connect (Premise)'; the third is labeled 'Server address (if required)' with an information icon and contains the text 'mobility.sjcccd.org'. At the bottom, there is a large blue button labeled 'Next' and a smaller white button labeled 'Send Logs'.

### Select **Accept** on Certificate Error

### Wait while retrieving user information

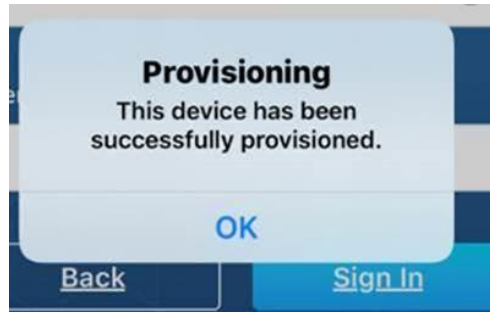

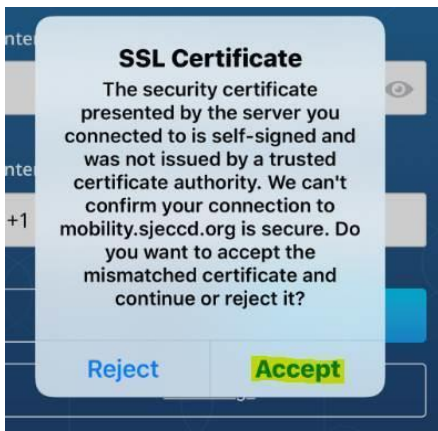

Enter your **network password** and your personal cell phone number starting with **1 area code** and **number**

Press **Sign In**

A screenshot of a web application interface with a dark blue background. The form has two input fields. The first field is labeled "Enter your password" and contains a yellowed-out password. The second field is labeled "Enter your mobile number" and contains the number "14085551212", which is also yellowed out. At the bottom of the form, there are two buttons: "Back" and "Sign In" (highlighted in yellow).

Accept SSL Certificate / wait while system retrieves information / Press **OK** at the Provisioning successful screen

Choose "OK" for all below screens (Note: Local Phone Contact access is an Individual choice)
